## Projects

### Youtube Clone

[github](#) | [demo](#)

I developed a YouTube clone website that included infinite-scroll functionality, a home page displaying the most popular videos in a selected country, and a search page that allowed real-time searches for videos, channels, and playlists. During the creation process, I implemented features that allowed users to watch videos, view related videos, and access playlist and channel details, ensuring an engaging and user-friendly experience.

### Netflix Clone

[github](#) | [demo](#)

I developed a Netflix clone website with a UI similar to the original platform, ensuring that it was fully responsive and mobile-friendly. During the creation process, I implemented features that allowed users to view movie and series information and watch trailers if available, providing an engaging and enjoyable user experience.

### Maltimart Ecommerce

[github](#) | [demo](#)

I created an ecommerce website with a beautiful UI that was fully responsive and mobile-friendly. During development, I ensured that users could easily add items to their cart, view item details, and see the total price in their cart. To streamline the ordering process, I built a feature on the item page that allowed users to add a specific quantity of the item to their cart.

## Language

- Arabic (Native)
- English (B2)

## About Me

ReactJS Frontend Developer with +2 years of experience in building high-quality websites and applications. Strong attention to detail and problem-solving skills to optimize project performance and user experience. Let's connect to discuss your project's success.

## Experience

### Freelancer

2023 – Present

## Education Background

*Bachelor of Informatics Engineering*

*Department of Software and Information Systems*

*Present*

## Hard Skill

- HTML / HTML5
- JavaScript /jQuery
- Bootstrap 5
- React.js
- Next.js
- React Test Library
- Problem Solving
- CSS / CSS3
- SASS
- Tailwind CSS
- Redux / Redux Toolkit
- TypeScript
- React Query
- Git / Github

## Soft Skill

- Observation
- Decision making
- Communication
- Critical Thinking
